

Required Stairway Ordering Information

Use For Upper Stairway (Landing to Loft)

Select One:

- Dual Cope Full Log Stringer
- Mortise & Tenon
 - Half Log Stringer
 - Timber Stringer
 - Half Log Treads
 - Timber Treads

Splits or cracks which run length-wise of the logs are known as checking.

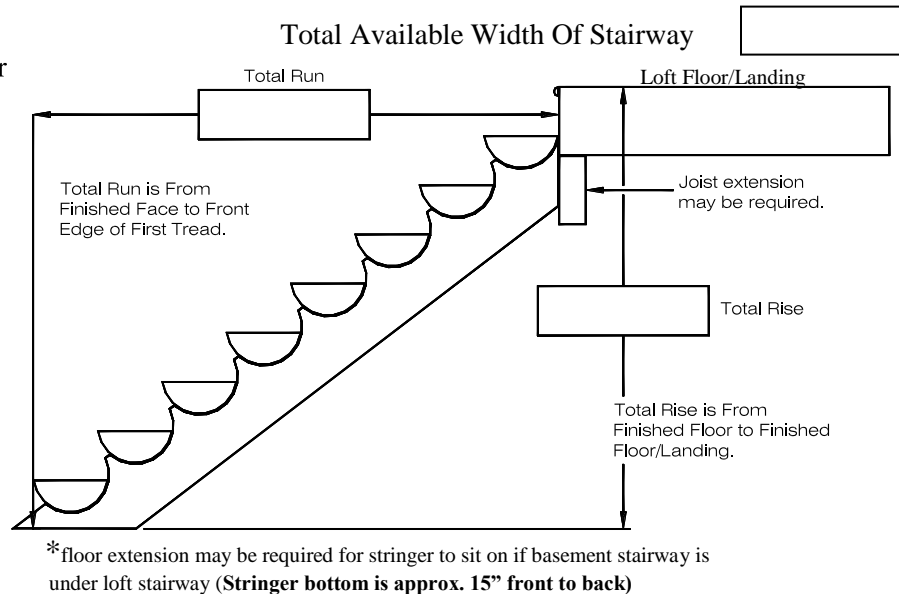

It is a natural phenomenon and is to be considered part of the authentic log look that enhances the beauty of the log.

We recommend stringers 12 ft. and longer are center supported in someway.

Use For Lower Stairway (Landing To Main Floor) or Single Stairway (Loft To Main Floor)

Select One:

- Dual Cope Full Log Stringer
- Mortise & Tenon
 - Half Log Stringer
 - Timber Stringer
 - Half Log Treads
 - Timber Treads
